

Pursuant to 49 CFR § 1250.4, each class I railroad is required to submit a report of “significant rail infrastructure projects” that will be commenced during the calendar year. BNSF has reviewed our 2022 capital investment plan and has identified the following project above the \$75 million threshold:

Project: Needles Triple Track

Purpose: BNSF will construct a third mainline track segment on its Needles Subdivision from West Needles (milepost 580.45) to Goffs (milepost 609.3) in order to reduce congestion and enhance throughput on BNSF’s Southern Transcon corridor.

Location: San Bernardino County, California

Projected Date of Completion: Fourth Quarter 2023
