

Pursuant to 49 CFR § 1250.4, BNSF has reviewed our 2023 capital investment plan and identified the following project above the \$75 million threshold:

Project: Needles Subdivision Triple Track

Purpose: BNSF will construct a third mainline track segment on its Needles Subdivision from Bagdad (milepost ~670) to Ash Hill (milepost ~687) in order to reduce congestion and enhance throughput on BNSF's Southern Transcon corridor.

Location: San Bernardino County, California

Projected Date of Completion: 2025

Project: Second Missouri River Bridge at Sibley, Missouri

Purpose: BNSF will construct a second bridge over the Missouri River at Sibley, Missouri adding a second mainline track segment at this location in order to reduce congestion and enhance throughput on BNSF's Southern Transcon corridor.

Location: Jackson and Ray Counties, Missouri

Projected Date of Completion: 2026

BNSF

Project: Needles Subdivision Triple Track

Purpose: BNSF will construct a third mainline track segment on its Needles Subdivision from Bagdad (milepost ~670) to Ash Hill (milepost ~687) in order to reduce congestion and enhance throughput on BNSF's Southern Transcon corridor.

Location: San Bernardino County, California

Projected Date of Completion: 2026 (previously 2025)

Project: Second Missouri River Bridge at Sibley, Missouri
