Public & Media Advisory: December 20 Radio Broadcast of Interview of Surface Transportation Board Chairman Roger Nober

The Surface Transportation Board (Board) today advised the public and the media that a radio interview of Board Chairman Roger Nober will be broadcast on WJFK (106.7-FM) Radio (in the Washington, D.C., metropolitan area) from 9:00 a.m. until 10:00 a.m. on Saturday, December 20, 2003.

The interview, taped earlier for December 20 broadcast, is the latest segment in WJFK's "Business of Government Hour Radio Show" airing Saturday mornings through the IBM Center for the Business of Government (IBM Center).

Hosted by Paul Lawrence and co-hosted by David Abel, both of IBM Business Consulting Services, the "Business of Government" series features federal executives interviewed about their public-service careers, their agencies' work and accomplishments, and their visions of government in the 21st Century.

In addition to the December 20 broadcast of the interview, transcripts and an audio file will be posted to the IBM Center's website at <http://www.businessofgovernment.org/>.
